SY LSOH 4 core x 1.5mm EXT

Application

Flexible medium mechanically protected control cable.

For use as control / interconnect cables where flexibility and a degree of mechanical protection is required utilising the GSWB.

Due to LSOH UV higher grade jacket, cable is for external use in suitably protected installations.

Construction

Conductor material:	Class 5 flexible bare copper 30 / 0.23
Insulation material: :	LSF-PVC – diameter 2.40 (+/-0.15)
Bedding material :	LSF – PVC nominal Dia 6.9mm
Core identification:	Colour coded – Black, Brown, Grey, Green Yellow
Braid:	Galvanised Steel Wire Braid 24 / 0.2 (40 %)
Jacket:	External grade LSZH Black nominal od 9.4mm

Characteristics

Voltage rating	300V / 500V
Conductor DC resistance	< 14.9 Ω/100m
Rated Temperature	- 20 deg C - + 80 deg C (Static installation)
